ABOUT FRIGG FAIRYTALE

FRIGG Fairytale X Hans Christian Andersen

The Danish author Hans Christian Andersen and his world-renowned fairy tales are popular for a reason. He is best known for his fairy tales for children, but as they show insight in human psychology they also speak to the minds of adults. His work often contains an implicit criticism of society and inequality due to social status, often based on his own experiences.

His fairy tales are more than just a happy ending; they portray real moral lessons

through characters. On the surface they amuse and in depth they amaze, which makes his fairy tales relevant for both children and adults.

His fairy tales create a special parent-child bond when parents read them for their children, but they also build a universal language, which creates a bond between people around the world. His fairy tales are timeless and can be read and understood on different levels by everyone.

Hans Christian Andersen's paper cuttings

Hans Christian Andersen was not only an amazing storyteller; he was also very skilled with a scissor and carved the most beautiful motives in paper. The shape of the new FRIGG Fairytale is inspired by one of Hans Christian Andersen's paper cuttings, a little hand carved artwork with a heart motif at the center.

The 8 little hearts support the universality of his creative work; symbolizing love, the universal language of the world. This is the inspiration that lies within our FRIGG Fairytale pacifiers: They are approachable for everyone because love is a language, we can all speak and understand.

ABOUT FRIGG FAIRYTALE

FRIGG Fairytale: The meaning behind the 9 colors

FRIGG Fairytale is a pacifier inspired by the creative universe of the Danish author Hans Christian Andersen, more specifically his amazing fairy tales and paper cuttings. Read the full story [here](#).

The 9 pacifier colors are named by his fairy tales, and there is a meaning behind the chosen colors: Each color represents an element from the 9 fairy tales.

CLUMSY HANS (Willow Gray):

"If I can't have a horse I'll take the billy goat," said Clumsy Hans. "He belongs to me, and he can carry me very well. "So he mounted the billy goat, dug his heels into its sides, and galloped off down the highway."

'Clumsy Hans' is the color of Hans' sweet goat; if it wasn't for that goat Hans would have never married the princess.

OLE LUKOIE (Stone Blue):

"When night comes on and children still sit in good order around the table, or on their little stools, Ole Lukoie arrives."

We all know the color of the dusk, slight bluish with a little touch of gray, just like this beautiful pacifier.

THE LITTLE MATCH GIRL (Blush):

"And she quickly struck the whole bundle of matches, for she wished to keep her grandmother with her. And the matches burned with such a glow that it became brighter than daylight. Grandmother had never been so grand and beautiful. She took the little girl in her arms, and both flew in brightness and joy above the earth, very, very high, and up there was neither cold, nor hunger, nor fear-they were with God."

The color 'The Little Match Girl' has the color of the purest little heart of the girl.

THE EMPEROR'S NEW CLOTHES (Silky Satin):

"But he hasn't got anything on," a little child said."

And naturally this pacifier has the color of the emperor's taint.

ABOUT FRIGG FAIRYTALE

THE LITTLE MERMAID (Twilight Mauve):

"She was an unusual child, quiet and wistful, and when her sisters decorated their gardens with all kinds of odd things they had found in sunken ships, she would allow nothing in hers except a pretty marble statue. This figure of a handsome boy, carved in pure white marble, had sunk down to the bottom of the sea from some ship that was wrecked. Beside the statue she planted a rose-colored weeping willow tree, which thrived so well that its graceful branches shaded the statue and hung down to the blue sand, where their shadows took on a violet tint, and swayed as the branches swayed. It looked as if the roots and the tips of the branches were kissing each other in play."

Naturally, this pacifier needed to be a shade of purple, just like the shadow from the weeping willow tree in the garden.

THE PRINCESS AND THE PEA (Pretty in Peach):

"One evening a terrible storm blew up. It lightened and thundered and rained. It was really frightful! In the midst of it all came a knocking at the town gate. The old King went to open it. Who should be standing outside but a Princess, and what a sight she was in all that rain and wind. Water streamed from her hair down her clothes into her shoes, and ran out at the heels. Yet she claimed to be a real Princess!"

A true princess has cheeks like the color of a beautiful and sun-kissed peach – even when the rain is pouring down.

THE UGLY DUCKLING (Cream):

"But what did he see there, mirrored in the clear stream? He beheld his own image, and it was no longer the reflection of a clumsy, dirty, gray bird, ugly and offensive. He himself was a swan! Being born in a duck yard does not matter, if only you are hatched from a swan's egg."

Naturally, this pacifier needed to be the color of the Danish national bird: The Swan.

THUMBELINA (Primrose):

"A nicely polished walnut shell served as her cradle. Her mattress was made of the blue petals of violets, and a rose petal was pulled up to cover her."

As the color of the beautiful rose petals who covered Thumbelina at night, this pacifier has the same magical glow as this little human when she overcomes so many obstacles in the fairy tale.

ABOUT FRIGG FAIRYTALE

THE SNOW QUEEN (White Lilac):

"A few snowflakes were falling, and the largest flake of all alighted on the edge of one of the flower boxes. This flake grew bigger and bigger, until at last it turned into a woman, who was dressed in the finest white gauze which looked as if it had been made from millions of star-shaped flakes. She was beautiful and she was graceful, but she was ice-shining, glittering ice. She was alive, for all that, and her eyes sparkled like two bright stars."

This pacifier has the color of a delicate frozen winter rose. The morphing of both the colorful and beautiful summer rose garden and the arrival of the beautiful yet cold Snow Queen.

ABOUT OTHER FRIGG PACIFIERS

FRIGG DAISY:

FRIGG Daisy with scalloped edges mimics one special flower: The Daisy. Daisy has a rosette of small, thin white petals that surround a bright yellow center. The name 'Daisy' derives from 'day's eye', referring to the wildflower's tendency to open when the sun rises and close when it sets.

Our National Flower in Denmark is the Daisy flower. The Daisy symbolizes purity and innocence, which makes the cute little flower the perfect inspiration behind our comforting pacifiers for our little ones.

Daisies embellish the grass fields all over our country in the summer and is in fact our Queen Margrethe's favorite flower. Funnily enough 'Daisy' is also her nickname.

FRIGG ROPE:

FRIGG Rope with a thin rope that encircles the shield, and a thicker rope used as a handle. The encirclement of the rope represents the strong and continuous bond between a mother and her child.

We have used a rope to symbolize the umbilical cord that connects the unborn child to its mother, through which it receives oxygen and food. FRIGG Rope is inspired by the life-giving cord to show that the bond between a mother and her child is unbreakable.

FRIGG LITTLE VIKING:

As a tribute to Norse mythology, including the Norse Goddess Frigg who is the inspiration behind the FRIGG brand, our Scandinavian roots, and the many exciting stories about the Vikings, the Little Viking collection has been created. The pacifier shield is highly inspired by the Vikings' round shields, decorated with the Fehu symbol from the runic alphabet. Fehu is associated with fruitfulness and fertility, abundance, and spiritual wealth.

Little Viking is made to protect and give security to the little curious and brave Vikings of the world.

The Little Viking collection consists of 6 pacifiers, each named after a well-known figure from the Viking Age: Harald, Knud, Ragnar, Holger, Sigrid and Bjorn.

FRIGG MOON PHASE:

FRIGG Moon Phase is a pacifier inspired by the moon in motion. The shifting Moon Phases are reflected on the pacifier shield, and they function as air holes to ventilate baby's sensitive skin.

FRIGG Moon Phase also represents strong and everlasting love. We all know the popular saying "I love you to the moon and back", which refers to the powerful love for someone – in this case parents' love for their child.

ABOUT OTHER FRIGG PACIFIERS

FRIGG MINI MOCHA:

Inspired by the FRIGG Rope design, FRIGG Mini Mocha reflects not only the bond between mother and child, but also a connection shaped in still moments, where calm, closeness, and quiet togetherness take form.

FRIGG Mini Mocha celebrates the small pauses of everyday life: the gentle rhythms and rituals shared between baby and parent. Just as coffee invites us to slow down, Mini Mocha becomes a symbol of comfort, presence, and connection.

Rooted in a respect for nature and a responsibility to make thoughtful choices, Mini Mocha gives new purpose to what would otherwise be left behind, transforming it into something meaningful.

The FRIGG Mini Mocha collection comes in five carefully curated shades, all inspired by the world of coffee.

Why coffee grounds?

Every day, millions of cups of coffee are enjoyed around the world, leaving behind coffee grounds that are often discarded. With Mini Mocha, we challenge the idea of waste by giving this natural byproduct a new purpose. By blending 10% recycled coffee grounds into the shield material, Mini Mocha represents a small but meaningful step towards more conscious product development.

From coffee plant to bean. From brew to grounds. From leftover to new beginning. A lifecycle that reflects life itself, from the very beginning and everything that follows.

We know one pacifier will not change the world, but we believe every better choice matters.

ABOUT OTHER FRIGG PACIFIERS

FRIGG BUTTERFLY:

The FRIGG Butterfly pacifier resembles the shape of a butterfly. The shield with wavy edges has large airholes and in the middle you find a round center that highlights the elegance of the pacifier.

The pacifier is inspired by the beautiful butterfly – not only by its looks but also by its magical transformation. To become a butterfly, a caterpillar undergoes a process of transformation. During this process, the caterpillar stays in a cocoon and in the end, it blossoms as a beautiful butterfly.

This magical transformation is a symbol of development of life. A baby moves through different developing stages as well, inside a mother's womb, and at the end of the transformational process the baby gets born to blossom in the big world.

FRIGG Butterfly is an anatomical pacifier with a nipple that reflects the shape of the mouth. The pacifier is designed to put less pressure on the palate, gums and jaws and is the gentlest type of pacifier. This reduces the risk of crooked teeth and a crooked bite. The orthodontic design is perfect for supporting the proper development of baby's teeth, jaw, and palate.

FRIGG LUCKY:

FRIGG Lucky is a pacifier inspired by the four-leaf clover. The shield has wavy edges that are shaped as the leaves of the four-leaf clover, and these leaves are reflected on the shield as well, functioning as airholes. In the middle you find a round center that highlights the elegance of the pacifier.

The four-leaf clover is a universally recognized symbol for good luck. It is considered for bringing luck because of its rarity. FRIGG Lucky is made to provide children with soothing comforters that bring them luck. This pacifier is the lucky charm that will brighten every child's life.

FRIGG Lucky is a symmetrical pacifier with a slightly flattened and teardrop-shaped nipple. The symmetrical pacifier always fits correctly in baby's mouth, regardless of whether it is facing up or down. The pacifier is designed with a flatter neck to reduce the pressure on palate, gums, and also reduce the risk of crooked teeth and a crooked bite. The orthodontic design is perfect for supporting the proper development of baby's teeth, jaw, and palate.
