

The image displays four baby pacifiers from the brand FRIGG, arranged on a textured, light brown surface. The pacifiers vary in color and design: a light blue one in the top left, a white one with a scalloped edge in the middle left, a light blue one with a yellow teat in the top right, and a terracotta-colored one in the bottom right. Each pacifier features a central teat and a ring for the baby's finger. The brand name 'FRIGG' is printed in white capital letters in the center of the image.

FRIGG

FRIGG

Designed and manufactured in Hinnerup, Denmark, FRIGG is for everyone who wants the best for their baby. We provide parents with unparalleled quality where form and function live in harmony. Every product is imagined and crafted with safety and beauty while always promoting health and wellness for babies.

FRIGG means "beloved" in Old Norse, ultimately derived from Indo-European *pri for "to love." In Norse mythology, Frigg was the goddess of earth, air, and fertility and the wife of Odin.

We value the beauty in minimal design and the use of minimal materials. Our products' clean lines and warm colors reflect our values. FRIGG products are 100% free from BPA, PVC, and phthalates. Each FRIGG pacifier is produced with a stretch and vacuum test, and is marked with batchnumber and size.

FRIGG

Natural Rubber

100% natural material
Even softer than silicone

Size 1
0-6 months

Size 2
6-18 months

Silicone

Medical grade silicone
More durable/sterile than natural rubber
