VEGAN

### Mushie Baby Cream – About the product

With Mushie's Baby Cream you can provide your baby's skin with a protective barrier that prevents the skin from drying out. The soothing, moisturizing and nourishing Baby Cream is gentle enough for everyday use, and the cream is suitable for every area of dry, chafed skin.

### Mushie Baby Cream details:

- Contains 100 ml
- 100% Vegan
- 99% Natural ingredients
- Fragrance-free
- Suitable for ages 0+
- Made in Denmark

### Certifications:

### How to use the Baby Cream:

Apply a generous amount of cream to the desired area of clean, dry skin. Reapply as needed with each diaper change or treatment of irritated, chafed skin. For external use only. Avoid contact with eyes.

### Special ingredients to highlight:

- Coconut Oil: Really good for dry, itchy and sensitive skin. The ingredient gives a protective film on the skin and is easily absorbed.
- Shea butter\*: With a particularly high content of oleic acid, which is good for very dry skin. Shea butter is also rich in non-glyceride substances such as phytosterols, which is similar to cholesterol, and this will moisture and soothe the skin efficiently.
- Glycerin: Maintains the moisture of the product so it doesn't dry out. It also soothes, moisturizes and softens the skin while keeping the skin's natural moisture balance.
- Apricot kernel oil: Rich in essential fatty oils especially oleic acid which is good for very dry skin. The oil moisturizes dry and irritated skin and strengthens the skin's natural elasticity.
