How to use Shampoo & Body Wash:

Add a small amount to the bathwater or hair. Rinse thoroughly with water. Use with Mushie Baby Oil or Mushie Baby Lotion to achieve extra soft skin.

Special ingredients to highlight:

- Mild and gentle surfactants that cleanses without drying the skin and hair.
- Glycerin: Glycerin is used in cosmetic products as a moisturizer due to its hygroscopic properties. Hygroscopic is a term for substances that easily absorb water vapor from the surroundings. Glycerin also prevents loss of moisture from the product so that it does not dry out. Maintains the hair's natural moisture balance, which also gives elasticity.
